MedConnect Access Card

*What do the
physicians say?*

AAPS Association of American Physicians and Surgeons, Inc. recommendations:

- ✓ **Keep your doctor advised** of all medications.
- ✓ **Make a list** of all medications, vitamins, and supplements. The list should include name, use, dosage, and how often you really take every pill, tablet, etc.
- ✓ **Update the list** every time you see a new doctor; change, add, or subtract medications, and alter dosages.
- ✓ **Make sure your physician sees your list** with each visit.
- ✓ **Your physician should keep a copy** of the medication list.
- ✓ **Try to minimize the number of pharmacies** used and keep your pharmacist up to date.

This is where MedConnect comes in...

After entering your current medication information, show your MedConnect Access Card to your doctor, pharmacist, or caregiver. They will easily view your medication list online and make sure you're receiving the proper care. *It's that easy!*

**Your Medication
Information in
One Single, Safe
Location**

**Easy for Your
Doctor, Pharmacist
or Caregiver to
Access**

**Included with a
subscription to our
PERS service at no
charge. FREE!**

The Care Center

Care...the essence of what we provide. Whether getting assistance, providing reassurance, or just a friendly voice, we're there when others can't be, and happy to speak with a "member" anytime.

Center...because we are at the center of getting information to all the parties involved in keeping our members safe and at home, where they are most happy.

You can have confidence the Care Center will be there when you need it because we designed it to incorporate the latest equipment and services from the leading companies in telephony and data processing.

No hidden charges

A Medical Alert System in your home means that we're there to help with just the touch of a button.

The peace of mind, security, and confidence to continue with daily activities and maintain your independence can be yours with the high quality **Personal Response System** (also known as a Medical Alert System) that is affordable and easy to use.

"I've got someone at the door and wasn't expecting visitors, can you listen while I see who it is?"

1

"We'll stay right here while you check."

2

"Oh it's just my granddaughter, so nice of her to visit."

"Great Martha, enjoy the visit, if you need us again just press your button, have a great day now."
